CAPABILITY

THE INFRASTRUCTURE SERVICES GROUP (ISG) PROVIDES INTEGRATED SERVICES TO THE MINING AND CONSTRUCTION INDUSTRY.

Expertise includes design, consulting, construction and operations in the following fields:

- Complete Information & Communication Technology (ICT) Systems incorporating all layer 1, layer 2 and layer 3 infrastructure, hardware and software solutions
- Power Plant and Process Plant electrical & mechanical engineering, construction and maintenance
- High Voltage Transmission, Generation and Automation Systems
- Critical Communication Specialists - Optical Fibre, Radio Transmission, Structured Cabling
- Industrial Internet of Things (IIoT) Automation Hardware & Software Technologies Design, Build and Run
- Logistics and supply-line services / Specialist Equipment Procurement

Product Specifications

Container	10 feet or 20 feet maritime approved
PV power	From 7 kWp to 65 kWp (24 to 240 modules)
Power Conversion system	7,14 kVA (mono), 21, 42, 63 kVA (triphase)
Battery storage	From 10 kWh to 120 kWh sodium type (48V)

UPS, CABINETS AND CRITICAL POWER SOLUTIONS

Schneider Electric's fully integrated uninterruptible power supply solutions can provide your business with the highest levels of availability, reduced total cost of ownership (TCO) and improved energy efficiency.

AFL **HYPERSCALE.**
Data Center Cabling and Connectivity Experts

ISGHoldings
Infrastructure Services Group Holdings

Authorised Distributor

AFL Hyperscale—Ultra High Density (UHD) Data Centre Specialists

- Alleviate the concern for ever increasing bandwidth posed by Internet of Things (IoT), implementation of 5G, more connected devices and the continued growth of cloud computing, by using the AFL Hyperscale Ultra-High Density (UHD) Solution
- First Light UHD Solution
- Authorised Distributor and Certified Installer
- 25 Year System Warranty
- 3-5 day manufacture

HYPER SPEED SERVICE TIGHT DEADLINE? WE CAN HELP

With same-day and quick-turn (3 to 5 day) manufacturing capabilities, our Hyperspeed Service means you receive customized fiber and copper assemblies when you need them the most.

With dedicated quick-turn factories across the globe, we excel in delivering, often before others have even quoted. From high performance MPO trucks and fan-outs to pre-terminated assemblies we can customize and configure to your exact specification, and deliver it quickly. Never struggle with tight deadlines or long lead times again.

THE AFL HYPERSCALE UHD SOLUTION

IMPROVE Space management
with the 864 LC Port
6U Mass Splice and Patch Frame

THE AFL HYPERSCALE SOLUTION CAN ALSO BE USED AS PART OF THE AFL HYPERSCALE ULTRA-HIGH FIBER COUNT SOLUTION

FUJIKURA 70R+ FUSION SPLICER

Perfect for high density applications, the ruggedized Fujikura 70R+ fusion splices 12 fibers in 11 seconds, and splice protects in 18 seconds. Whether outside or in, the 70R+ is one of the most versatile and efficient fusion splicers on the market.

FUJIKURA RS02 RIBBON FIBER STRIPPER

The Fujikura RS02 Ribbon Fiber Stripper on one charge gives 600 strips across 12 fibers with an incredibly low heating time of just 3 seconds. With Bluetooth connectivity the RS02 ensures trouble free servicing and maintenance.

MPO FUSECONNECT

FUSEConnect fusion-spliced, field-installable connectors utilize a fusion splicer to terminate the connector in the field. FUSEConnect connectors are available in MPO, LC, SC, FC & ST connector variants in both angle and flat variants.

FUJIKURA CT-30A CLEAVER

The Fujikura CT-30A is portable, precision cleaver suitable for cleaving up to 12 fibers simultaneously. The 16 position blade yields 48,000 single fiber cleaves, or 4,000 12-fiber cleaves before a replacement blade is required.

Fluke Digital Multimeters

Solutions for every need

Fluke Shanghai Corporation here to clarify that,

- ISG IoT LLC is the Authorised Distributor and probationary Trainer for the region of Mongolia in since 2018.
- All Fluke Networks' products purchased from authorised Fluke distributor (as above mentioned) will be supported for annual recalibration and 1-year standard warranty. While any products purchased from unauthorised channel will be unsupported/rejected by Fluke Networks.
- In order to develop business in the region of Mongolia, ISG IoT LLC with full support from Fluke Networks (China), will provide CCTT training to other resellers and end users in Mongolia for any Fluke Networks Versiv (Copper and Fibre Certified Cabling Test Technician - CCTT certification training) products purchased from ISG IoT LLC.

- Versiv™ modular design supports copper certification, fiber optic loss, OTDR testing and fiber end-face inspection.
- Unmatched speed for Cat 6A, 8, Class FA, I/II and all current standards.
- ProjX™ system manages job requirements and progress from set-up to systems acceptance, making sure all tests are completed correctly.
- Taptive™ user interface simplifies set-up, and eliminates errors.
- Analyze test results and create professional test reports using LinkWare™ management software.
- Graphically displays the source of failures including crosstalk, return loss and shield faults for faster troubleshooting.
- Intertek Verified to TIA Level 2G – the most stringent accuracy requirement.
- Copper cable certifiers endorsed by cabling vendors worldwide.
- Built in Alien Crosstalk testing.
- Compatible with Linkware™ Live. Linkware Live enables to easily track job progress, get real-time access to test results to quickly fix problems in the field, and easily transfer and consolidate test results from the tester to LinkWare™ PC Cable Test Management Software
